Welcome Back to 2024, some rain and gales to start us off, but some blue sky and calm to end the week! I hope you have all been able to enjoy some of the holidays. I know several families and staff have been rather poorly over the two weeks. Hopefully everyone is on the mend now.

Punctuality

Sadly, we still have several children who are consistently late in the mornings. I have asked the class teachers to alert you if this is your child/ren, and how it is impacting the start of their day and learning.

We start each day with a circle time 'check in' which lasts for 5-10 minutes. If your child/ren is not present at 8.30, they are missing out on this start. This week, the children have told us the positive impact this is having on their wellbeing, their start of day and ability to settle into learning. Please do all try to be here before I close the gate at 8.30 am – thank you.
